

ENVIRONMENTAL POLICY

Our Vision.

McCabe Construction is committed to actively developing, implementing and maintaining ways to minimise and manage the environmental impact of its operations and offerings.

Environmental Compliance.

We are committed to complying with, or exceeding the requirements of environmental performance and to ensure that:

1. Our suppliers are aware of the specific environmental, social and ethical issues, risks and opportunities relevant to their operations and products.
2. These systems deliver effective performance management and improvement.

We seek to use suppliers who share our commitment to best practice and continuous improvement. In addition we engage with suppliers within specific categories to reduce the environmental impacts of the items we use.

Our Commitment.

Continual improvement in environmental management is integral to the way we do business. This will be achieved by viewing compliance to legal standards as a formality. Where practicable we will operate and achieve above minimum standards.

Thomas McCabe.
